CTM LYNG

Microsafe® mTouch® One

MICROSAFE®

QUALITY - 7 YEARS - GUARANTEED
7

FEATURES

- ✔ Unique design – delivered in all standard colors.
- ✔ Large easy-to-read LCD display.
- ✔ 4 touch buttons for easy use and setup.
- ✔ Same product can easily be changed from thermostat (°C) to regulator (%).
- ✔ Party Function to easily suspend night setback for 7 hours.
- ✔ Automatic display illumination based on room lighting.
- ✔ Universal mounting.
- ✔ Zzilent mode for bedrooms.

Microsafe® mTouch® One

mTouch® One shows the precise temperature/power on the LCD display and can be adjusted with the ▲ and ▼ buttons. It has nighttime temperature drop (NTD), frost protection, Zzilent function (eg bedrooms), etc.
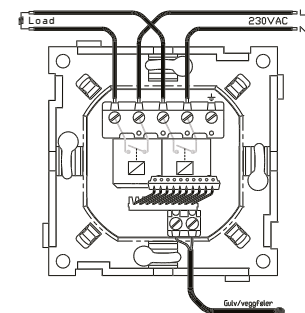

Self explanatory menu for adjusting features such as optional floor sensor type, as well as quick setup or manual setting of night setback. Optional color on screen background and text.

mTouch® One has key lock function (child safety) and parquet function (limiter if a floor sensor is used), as well as setting the maximum temperature to prevent unnecessary power consumption. NB: Limiter also when used as a power regulator.

OPERATION

On/Off   Up/+

Menu   Down/-
